Dear Ms. Litig:

Kim Mangum requested that I send you the enclosed copy of the Request for Monitor Well Construction, which we have filed with the Division of Water Rights. Please review it with Tom Munson, of your staff, and have Tom contact either Tom Suchoski, at EarthFax, or Kim Mangum, to review the proposed locations for the drill holes.

We want to make certain that the Division of Oil, Gas & Mining approves of the locations of the holes before we begin drilling, and if your staff has any suggestions for alternate sites or wishes to review the drilling process, please so advise Kim Mangum or Tom Suchoski. We can amend the Request to change the hole locations, if you deem it appropriate to do so.

Your consideration and assistance is appreciated.

Very truly yours,

Carl E. Kingston
